## Job Description

We are currently looking for a new colleague to join the position of Cost & Process Controller at Hitachi Construction Machinery Europe headquarter in Amsterdam.

Person in this position will be responsible for managing the entire cost structure and process organisation within the Production & Procurement division.

### What you will be doing
• Analysis of the production costs, deviations from standards/goals and possible cost-reduction opportunities.
• Coordination of the cost-reduction activities for the procurement and production parts.
• Preparing Management Reports and monitoring KPIs. Calculating, advising and checking price agreements concerning machines and semi-finished parts delivered from the HCM parent company.
• Compliance monitoring (SOX)
• Improving processes, procedures, systems and advising the Management.
• Analysis of process steps.

### What you will need to succeed
• BSc, BEng or MSc degree, economical or business-oriented
• 3-5 years of experience in similar position
• Fluent English
• Strong communication, reporting and analytical skills

### Your new company
Hitachi Construction Machinery is a world leading manufacturer of construction and mining equipment with a strong focus on a consistent development to provide customers with the technology, products and services that generate new value. Its employees represent a group of trusted experts while keeping continued focus on innovation and growth. Are you an independent achiever focused on the performance that is looking to join a multi-cultural, collaborative and an innovative working environment? If so, then we are looking for you!

### What you need to know
